MIQ-05

4-Door FP Access Control

IP-Based Control Panel

Mino-x a premium brand of Mantra for time attendance, physical access control, represent the most advanced and state of the art solutions for attendance, access control, visitor management, car parking, elevator control, vehicle access and alarm, camera linkage control, etc.

MIQ-05 is the most advanced access control panel which can provide biometric security for any door when connected with biometric readers and the software. These panels are versatile and can connect MR 120 fingerprint readers These readers can be connected with RS485 or Wiegand connectivity to the panels.

MIQ-05 Specifications

Platform	CPU	32bit MIPS CPU
CONNECTIVITY	Output Ports	8nos. (4-FORM C Relay for Lock, 4-Form C Relay for Aux)
	Input Ports	12nos. (4-Exit Button, 4-Door Sensor, 4-Aux Inputs)
	GPRS	Rs485
NETWORK	Technology	TCP/IP
MEMORY	Internal	128MB
	RAM	32MB
SOUND	Internal	Buzzer
POWER	Power Supply	12V DC , 5A
BODY	Dimensions	350(L)×90(H)×300(W) mm
MISC	Regulatory and certificates	CE, FCC, RoHS
Operational Environment	Working Temperature	0°C ~ +45°C
	Relative Humidity	20% ~ 80% relative humidity non-condensing
Biometric data storgae capacity	Record capacity	1,00,000
	Card Capacity	30,000 Proximity card
	User	3,000
Function	Number of Readers Support	12 (8 nos. RS485 readers, 4 nos. 26-bit Wiegand readers)
	LED Indicator	Indication for communication, Power status & Valid card read
